

## I. ACTIVITIES

### 1. Visiting to Slum Area in Kampung Kandang – Kelapa Gading

As a Coordinator of Activities for Jakarta City, I visited slum area in Kampung Kandang – Kelapa Gading last September. In that time, I met Mrs. Fingky, one of residents, who lives there. She told me about her desire that her children need a tutorial class activities or others activities to help them growing in their characters. Generally, slum area is a location where crimes are widespread. That is why, we plan to expand Life Center in Kampung Kandang and it will be starting on this October 2021.

TK B3	8 students	3 students	11 students
Total of students			42 students

## 3. Learning Activities

COVID – 19 Pandemic in Indonesia have turned a corner, so we dare to have an off line class or students attend a class face to face with teacher 5 days a week and keep doing the health protocols. We do learning teaching system with the parent's agreement:

### ❖ Face to face Class System

In this system, teacher is not only preparing the good activities or the attractive materials but also preparing good room with the health protocols.

❖ Face to face Class Grouping System

In this system, we limited the class time. It is only 2 hours per meeting. When the activity “learning while playing class” is running, teachers and students keep doing the health protocols.

**Students are studying by grouping**

**Student is showing the result of his activity in the class**

**Teacher is giving the topic of lesson**

**Students are doing the activity in the class**
