

EDUCATION ACTIVITIES SUNGAI TIRAM LIVE CENTER

On behalf of Lima Roti Dua Ikan Foundation, we thank you very much for the support and assistance to Jabezkidz, so that our existing educational service program for children from underprivileged families can continue.

We hope that this support and cooperation can continue to help more and more children from underprivileged families to get a good basic education as the formation of their character.

In this report, we report on educational activities at the Sungai Tiram Life Center, Tanjung Priok, North Jakarta.

Early Childhood B2	5 students	3 students	8 students
Early Childhood B3	8 students	3 students	11 students
Total			41 students

2. Learning Activities

Because of the condition of the covid-19 pandemic is getting better, we are brave to do the learning activities on site in the class in 5 days a week and keep doing the health protocols. We have learning agreement systems on site with parents are:

- ❖ Learning system on site

In this system, teachers are not only preparing activities or good materials for students, but they are also preparing a good room with health protocols.

- ❖ Learning system on site in a group

In a group on site class, there is only 2 hours meeting. While they are studying through playing, they are still keeping on health protocols.

Students are doing learning in a group

Students are showing the result of their activity
